

SCIENCEPALOOZA 2022!

-The original online science festival and webinar series!!!-

Friday, September 30, 3:00 pm Eastern Daylight Time (EDT)

Webinar:

Tradeoffs on the Road to More Sustainable

Trying to make one thing better frequently makes another worse. Tradeoffs dot the sustainability landscape. Some Ohio history will serve as a launching point for a discussion of toxic releases caused by chemistry designed to be more sustainable.

Speaker: **Mark Jones, PhD**

American Chemical Society Fellow and 30+ year chemical industry veteran

Joining us virtually "live" from Midland, Michigan!

For information on joining us contact:

@ Lorain County Community College, Professor Regan Silvestri rsilvestri@lorainccc.edu

@ Ashland University, Professor Perry Corbin pcorbin@ashland.edu

- Tune in early at 2:30 pm when NAMES, students of NAME, will be spinning some of their favorite tunes before the webinar!
- Stay tuned in at 3:30 pm after the webinar, for the fancy meet-the-author soiree after party social live between Ohio and Michigan, and a chance to win a \$25 Amazon gift card!

Brought to you by: Lorain County Community College, Ashland University, and the American Chemical Society-Wooster Section
